Support for Diverse Learners

We are committed to providing reasonable accommodations and support services to learners and will evaluate on a case-by-case basis what additional needs we can support within our programmes. Our medical conditions and additional needs policy is available to view on our website in our QA Manual by all stakeholders.

Transfer

Internal Transfer

Learners may request internal transfers between courses or levels, subject to availability and the learner's demonstrated ability.

External Transfer

Requests from learners joining us from other language schools or institutions will be considered case-by-case, considering previous language proficiency and course content covered.

Transfer Procedures

Learners who wish to transfer to another programme or level, can communicate this to their teacher or admissions/reception. The Academic Manager will discuss the move with their teacher with regard to their academic suitability for such a move and with operations regarding spaces and make a decision which they will communicate to the student along with their reasoning.

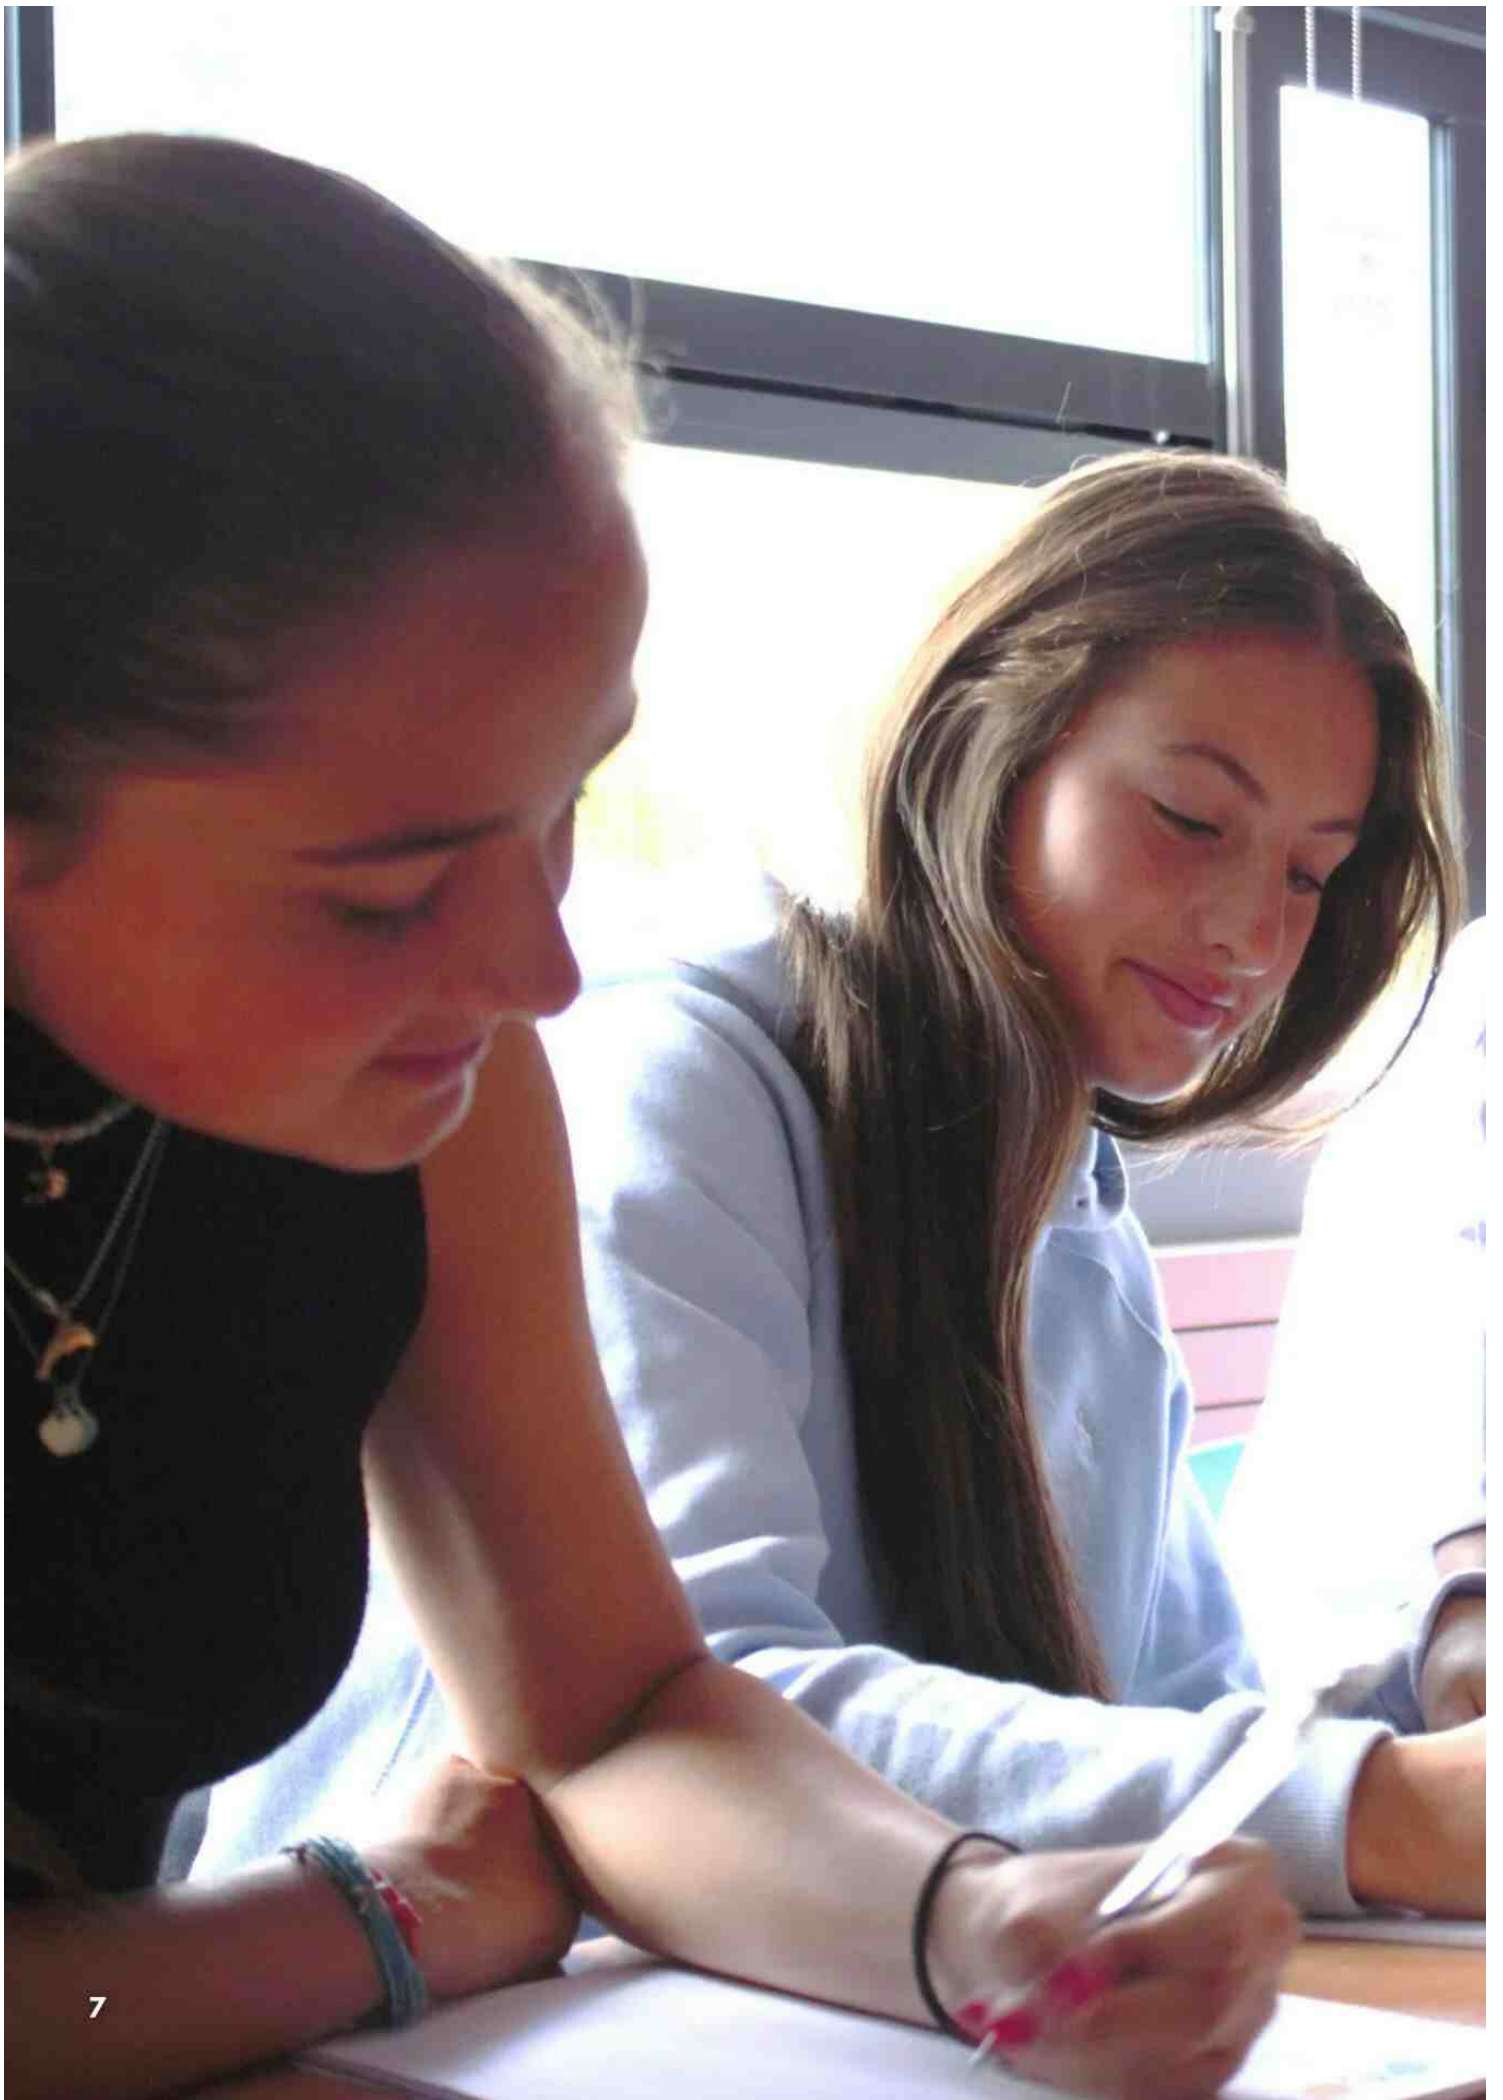

Progression

Academic Progression

We support learners' academic progression based on successful completion of course objectives aligned with the CEFR.

Progression Procedures

- Regular assessments and feedback will track learner progress as aligned with the CEFR and when a teacher deems a student is ready to move to the next level, this will be communicated to them and a plan put in place.
- Pathway posters regarding progression are on student notice boards and in some handbooks.
- Upon course completion, learners receive a proficiency certificate and an individual report tracking their progress with regard to 'can do' descriptors on the CEFR.
- Course programmes' purpose and intended learning outcomes are outlined for each course programme.

Quality Tuition

Building English Fluency

Progression is our focus and we aim to develop a natural interest and love of the language in our students. As part of our academic policy, students are evaluated pre-arrival and on their first day in class to ensure they are studying at the correct level. On completion of their course, students receive a **progress report** from their teacher and a **certificate of proficiency**.

Lessons are held every morning, from Monday to Friday and each course is supported by its own carefully planned syllabus and course book. Lessons focus on developing the core language skills, with specific emphasis given to speaking and listening. We use **highly interactive exercises** and **task based projects** to refine and amplify our students' **communication skills**.

Intercultural Irish Teenage Programme

As part of our continuous efforts to maintain high quality classes and to enhance our students' experience, we have introduced our unique Intercultural Irish Teenage Programme. Each week Irish teenagers join lessons to lead an exercise alongside our teachers giving our students the opportunity to connect with young Irish people. We have had an incredibly positive response to this programme.

Junior Programmes at ICE

Purpose

The purpose of our Junior Programmes is to provide young learners with an engaging and supportive environment to improve their English language skills. By following a structured syllabus based on the CEFR scale, the camp aims to help students achieve measurable progress in their language proficiency. These programmes are designed not only to enhance students' academic abilities but also to build their confidence and enthusiasm for using English in everyday situations. Through interactive activities such as group discussions, role-plays, and projects, along with an intercultural element that exposes students to diverse cultures and perspectives, the camp seeks to create a holistic learning experience. In addition, for those staying with host families, the immersion will provide authentic opportunities to practise English and engage in cultural exchange, further enriching their understanding and appreciation of the language and its cultural context.

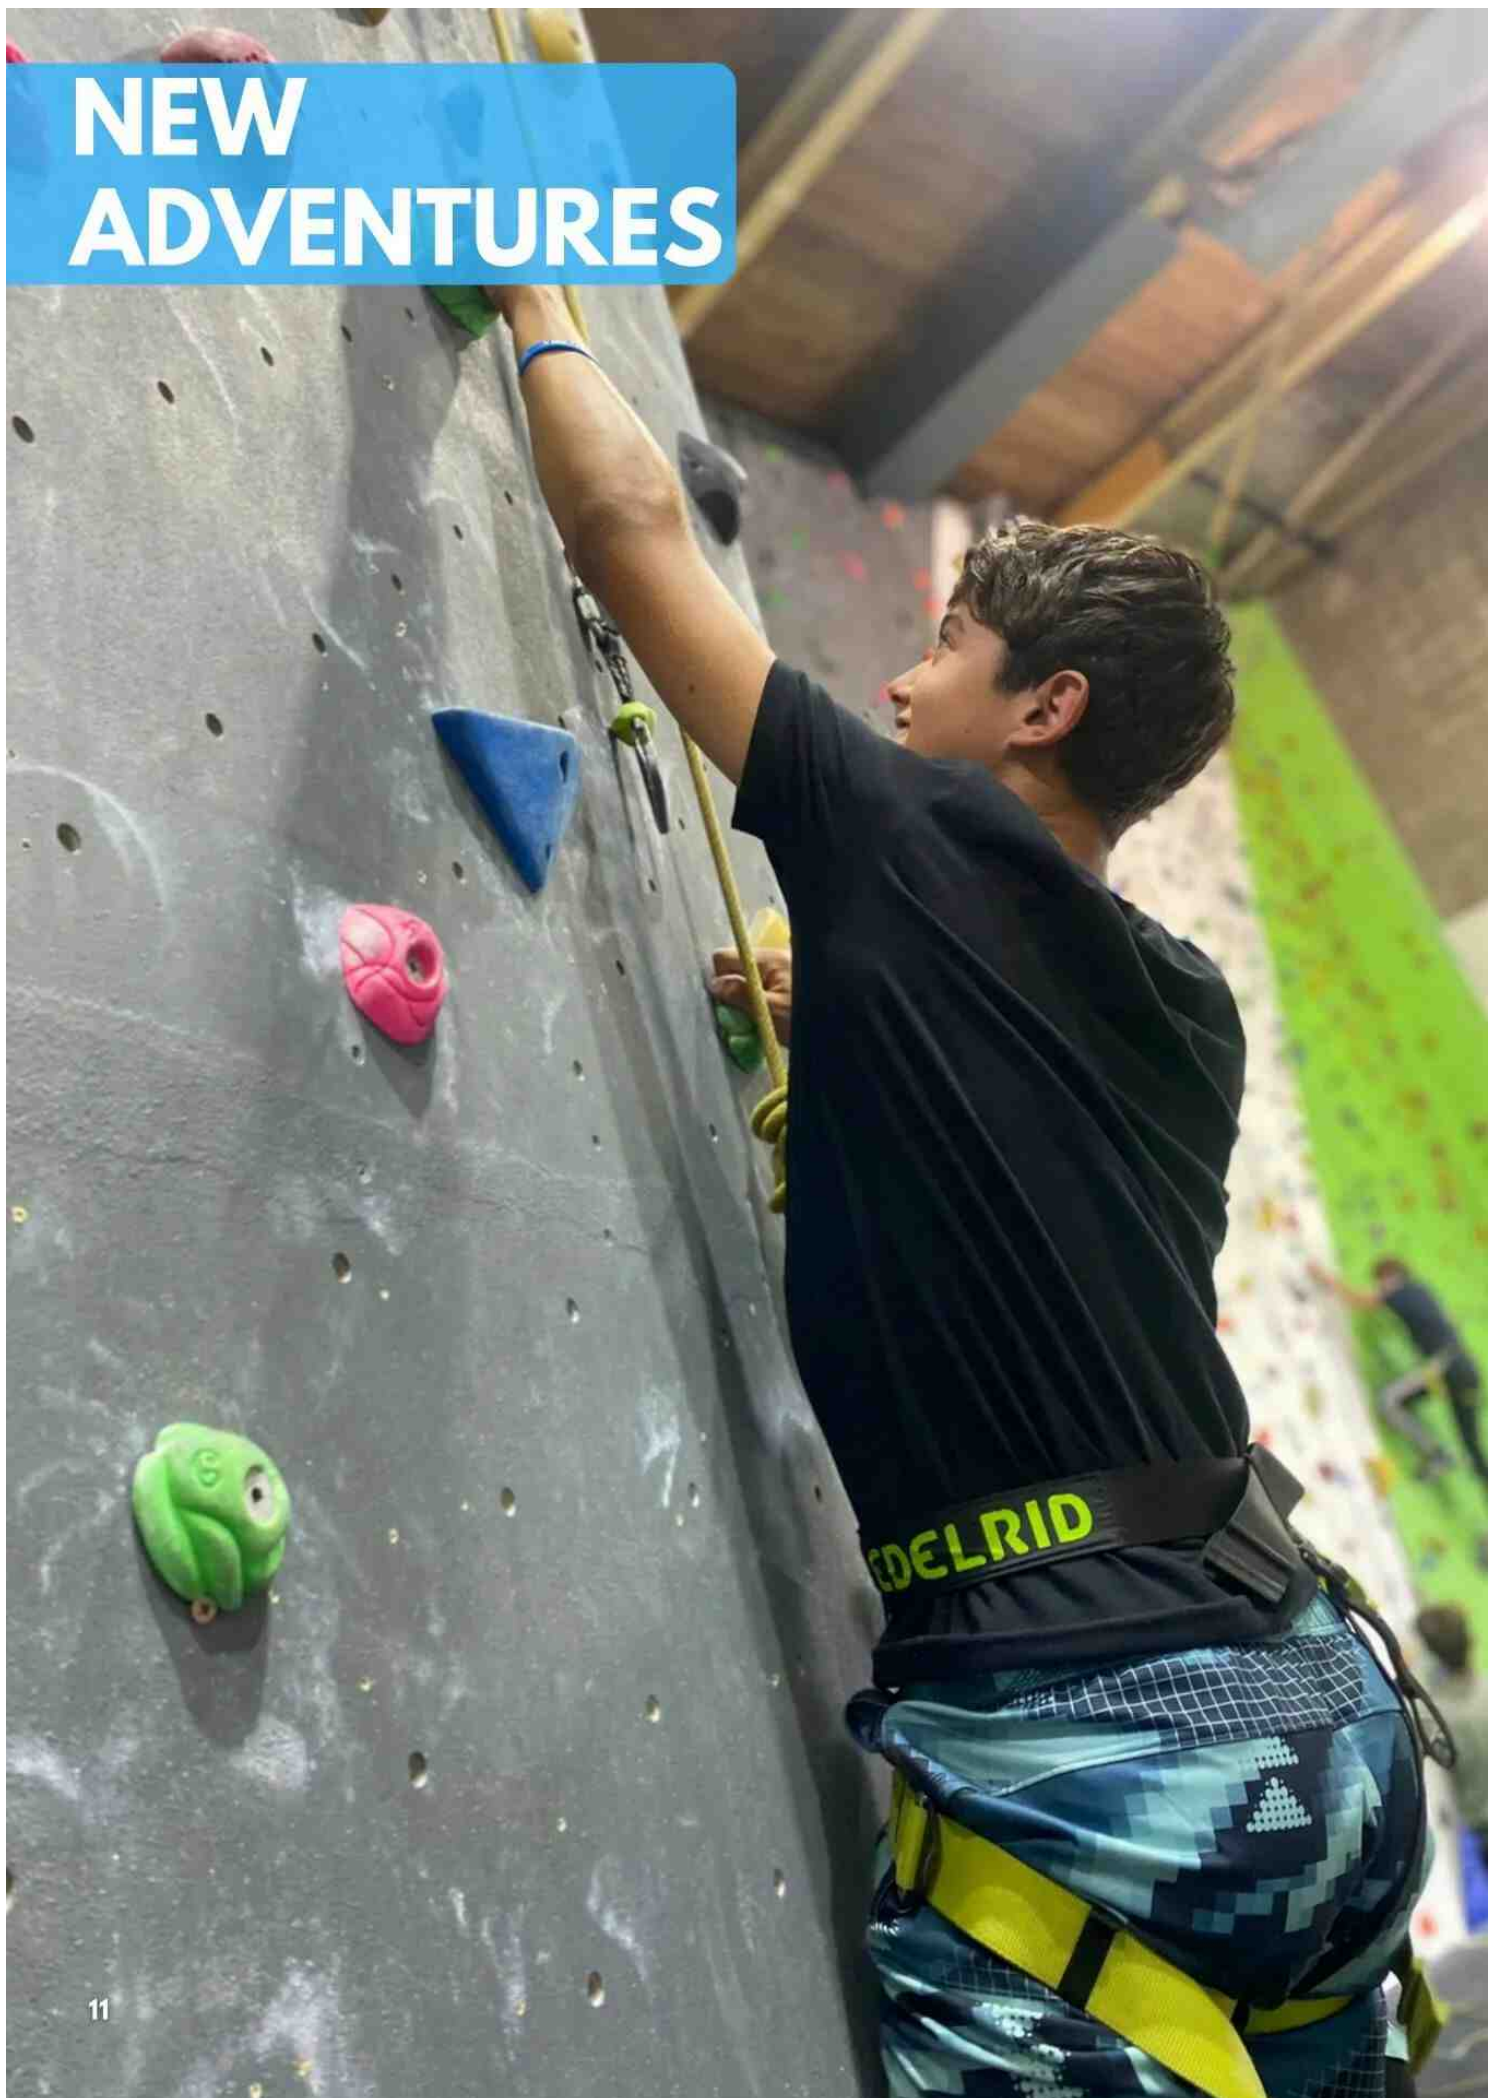

Intended Learning Outcomes

The intended learning outcomes for our Junior Programmes, is to enhance students' proficiency in English by advancing their skills along the Common European Framework of Reference for Languages (CEFR) scale. Through a dynamic and immersive syllabus, students will develop their reading, writing, speaking, and listening abilities, aiming to progress their language competence along to current CEFR Level or to the next CEFR level depending on their entry level and time on the programme. The course will focus on practical communication, vocabulary expansion, and grammatical accuracy, ensuring students gain confidence and fluency in real-life contexts while fostering a love for the English language.
